Profile

I am a dedicated **Frontend Developer** with proven experience delivering multiple real-world client projects using **HTML**, **CSS**, **JavaScript (ES6+)**, **React.js**, **Tailwind CSS**, and **Bootstrap**. I excel at **building fully responsive, user-friendly applications based on complex UI/UX designs**, ensuring seamless performance across all devices. Skilled in integrating **RESTful APIs** for dynamic, data-driven features and using **Redux** for managing complex state. Proficient with **Git** and **GitHub** for collaborative version control. Currently enhancing my backend skills to become a **Full Stack Developer** capable of building complete end-to-end web solutions.

Skills

HTML & CSS & JS — Expert	TypeScript — Competent
Tailwind — Proficient	Bootstrap — Competent
React.js — Proficient	Redux — Proficient
Git & GitHub — Competent	

Professional Experience

Frontend Developer React.js Developer, Shubra El Kheima, <ul style="list-style-type: none">• Developed and delivered multiple responsive, high-performance web applications for real clients, ensuring cross-browser compatibility and excellent user experience.• Converted complex Figma UI/UX designs into pixel-perfect, functional applications using React.js, Tailwind CSS, and Bootstrap.• Integrated RESTful APIs to fetch, display, and manipulate dynamic data, ensuring smooth and reliable application workflows.• Implemented Redux for efficient state management in large-scale and complex projects.• Applied performance optimization techniques, including code splitting, lazy loading, and caching, to enhance speed and responsiveness.• Collaborated with clients and teams using Git and GitHub for version control, code reviews, and organized project management.	08/2024 – Present Egypt
