

Abdulrahman Rafat

Wordpress Developer

 mosallamabdulrahman@gmail.com  01021688499  Qalyubia, Shubra El Kheima

Profile

WordPress Developer specialized in building fast, responsive websites using WordPress, Elementor, and custom code. Skilled in converting Figma designs into pixel-perfect pages, building dynamic structures (CPT, ACF), and customizing WooCommerce. Develop plugins and themes from scratch. Work remotely at Mosalam.com and as a freelancer. Fast learner with solid communication, Git/GitHub, accessibility, and performance optimization skills. Currently learning On-Page SEO.

Professional Experience

Wordpress Developer, Mosalam.com / Freelance	08/2024 – Present
• Build full websites and landing pages with Elementor (Theme Builder: header, footer, single, archive). • Convert Figma designs to responsive, cross-browser WordPress implementations (pixel-perfect, accessible). • Model dynamic content: Custom Post Types (CPT), taxonomies, and ACF; connect via WP_Query. • Develop custom mini-plugins and widgets (sliders, client cards, dynamic "Projects" module, shortcodes/widgets). • Build/customize themes (PHP, Template Hierarchy, child themes) with clean, maintainable code. • Use Git/GitHub for version control; document requirements and collaborate with team and stakeholders.	Shubra El Kheima, Egypt

Education

Bachelor of Business Administration (Arabic Section),	2026
Benha University - Faculty of Commerce	
Currently in 4th Year	

Skills

HTML & CSS & JS Proficient	Custom Post Types (CPT) Proficient

Projects

Swiss Pack, *A leading flexible packaging converter for the pharmaceutical industry*

- Engineered a highly optimized, custom WordPress theme from scratch utilizing native Gutenberg Blocks and Tailwind CSS.
- Delivered a lightning-fast, pixel-perfect frontend with scalable, custom-built components tailored to corporate branding.

Satcofood, *A store selling food products in Kuwait*

- Built the website using WordPress + Elementor + custom code, replicating the Figma design pixel-perfect.
- Developed custom plugins and dynamic sections; site nearing launch.

ConGroupEG, *A leading contracting and MEP engineering company in Egypt*

Developed the official corporate site with Elementor + custom PHP, based on Figma design. Implemented dynamic Projects and Clients sections using CPT + ACF.
